Note that for all banks, the recipient's name must be entered and the account number is valid. Account numbers should not exceed the maximum length or include special characters.

Additionally, we advise that Credit Card payments to other Banks cannot be made via First Citizens Online Banking at this time. We therefore recommend that payments be made to an account at the other credit card's issuing Bank. Once credited to the other Bank's account, payment to the other Bank's credit card can then be made via that Bank's online banking platform.
